

# About Keyword Search

1. Using the Keyword Query function, you can find out whether a specific content has appeared in any dataset of TEDS and in any questionnaire. This function is located on the upper left corner of the window.

2. For example, to search for Ma Ying-jeou, you simply key-in *Ma Ying-jeou* and click the *go* button.

3. The search result shows all the questionnaires and annual projects that had ever mentioned Ma Ying-jeou.

The screenshot shows a search interface with a 'Keyword Query' box containing 'Ma Ying-jeou' and a 'GO' button. A 'Menu' sidebar on the left lists various navigation options. The main content area displays a list of project titles under the heading 'TEDS Table of Project lists > Data Search List > Ma Ying-jeou'. The third item in the list, 'TEDS2013 - Benchmark Survey, 2013', is circled in red.

| Project Title   |
|---|
| TEDS2013-PA09 - Telephone Interview of the Presidential Satisfaction--Fifth Wave                    |

4. After selecting the year you desire to browse, and click the type of data you want to browse and title details are shown

The screenshot shows the details page for 'TEDS2013 - Benchmark Survey, 2013'. The breadcrumb trail is 'TEDS Table of Project lists > TEDS2013 > Benchmark Survey, 2013'. The page lists various classification questions under the heading 'Classification Questionnaire :'. Three questions are highlighted in blue boxes:

1. On a scale from 0 to 10, where 0 represents very bad and 10 represents very good, how would you rate the Executive Yuan's overall performance?
2. On a scale from 0 to 10, where 0 represents very bad and 10 represents very good, how would you rate the Legislative Yuan's overall performance?
3. On a scale from 0 to 10, where 0 means that you feel very favorable towards this person, and 10 means that you feel very hostile towards this person, how would you rate MA Ying-jeou?

A 'Go Top' link is located at the bottom right of the page.

5. Select a title to see distribution of counts and percentage of that title.
